US EPA RECORDS CENTER REGION 5

Removal has been just completed. I will be sending out a final polrep within a day or 2. After our initial communications regarding access, we received full cooperation and the representative (ex superintendent of S&K) met us on site to show us around and verbally give us the historical information he had. I also conducted an initial (May 30) and a final (June 28) tour of the site with local, county and state officials, so both Defiance and South Richland Township fire departments know the current status of the buildings in case they have to respond to a fire etc. Hope this helps

What's the status of the removal? Sally kindly forwarded the motion to abandon earlier. I was out of the office and just got back today. I would like to know in anticipation of the abandonment hearing next week. Also, have you had any access issues? My understanding based on a discussion with Rick Nagle that if the trustee succeeds in the motion, then we would need the debtor to agree to access. If the removal is done before then, then it wouldn't be an issue. This is why I'm curious where things stand with the removal. Thanks.

Great. This is very helpful. I just have one more question: Does this mean that you will no longer have any need for access to the site for the removal in the future?
